

Shekhinah, grandmothers, grand-fathers. Wise, loving, compassionate Ones. More than human people and elementals. Spirits and guardians who occupy the land I live on.

I ask you to bless what I am doing. Help me be wise. Help me be kind. Let me come from a place of love and compassion. Let me be an agent of your blessings on this Earth. I invite you to work with me and co-create what is good and beautiful. Something which will benefit many lives human and not-human. Ashe.
